A

AALAMI-HARANDI B., SAJADI K. and ZAHIR A.: How to remove Küntscher nail with no eye, 248
Abdominal trauma, blunt, isolated jejunal injuries arising from, 33
Abstracts:
Bacteriology and infection, 185
Burns, 90, 359
Fractures and dislocations, 186
Hand injuries, 87, 358
Injuries of head and spine, 264
Miscellaneous, 91
Odds and ends, 269
Organization topics and accident prevention, 86, 268
Pathology in experimental work, 266
Shock, 87, 361
Tendons and ligaments, 88, 361
Thoracic and abdominal injuries, 266
Thrombo-embolism, 264
Vascular injuries, 263
Accident centre, new, critical study of design of, 99
Accident prevention, report of a meeting on, 77
ALCAZAR E.: *see* PEIRÓ A. jt auth.
Alcohol factor in accidents, 67
ALI M.: Avulsion of gall bladder in blunt abdominal trauma, 334
Analysis of fractures treated in Royal Victoria Hospital, Belfast, in 1972, with special reference to gunshot wounds and bomb blast injuries, 296
Ankle, dislocations of, without fracture, 63
sprained, quantitative evaluation of use of oral proteolytic enzymes in treatment of, 313
ARDEN G. P.: *see* KAMDAR B. A. jt auth.
Arm, traumatic lymphocyst of, 346
Arterial injury associated with skeletal trauma, 28
occlusion in juvenile humeral supracondylar fracture, 254
Arteriography, possible value of, supplemented by vasodilator agent in early assessment of tissue viability in frostbite, 150
Artificial limb, fitting of, after 56 years, 343
Avulsion of gall bladder in blunt abdominal trauma, 334

B

BAIJAL E.: Multiple fractures of pelvis with unusually wide disruption of symphysis pubis sustained in accident shortly after childbirth: case report, 57
BENTLEY G.: *see* EDWARDS D. H. jt auth.
Bilateral erect dislocation of shoulders, 294
Bomb blast injuries, analysis of fractures treated at the Royal Victoria Hospital, Belfast, in 1972, with special reference to gunshot wounds and, 296
Bone, incorporation of stainless steel, titanium and Vitallium in, 277
tumour, osseous lesion simulating, due to unsuspected fragment of wood in foot, 344
BRADLEY J. G.: *see* CHECKETTS R. G. jt auth.
BROWNE P. S. H. and WAINWRIGHT D.: Severe irreducible slipping of upper femoral epiphysis: A review of fourteen cases treated by subtrochanteric osteotomy, 213

C

CALDERWOOD J. W.: Analysis of fractures treated in Royal Victoria Hospital, Belfast, in 1972, with special reference to gunshot wounds and bomb blast injuries, 296
CAMPBELL J.: *see* JOHNSON R. jt auth.
CARGILL A. O'R.: Long-term effect on tibiofemoral compartment of knee joint of comminuted fractures of patella, 309
Car seat belts and the eye, 3
Causes of injuries requiring admission to hospital in 1970s, 107
Cerebrospinal fluid leakage, dural fistulae and meningitis after basal skull fractures, 141
CHACHA P. B.: Salvage of severe open fractures of tibia that might have required amputation, 154
CHECKETTS R. G. and BRADLEY J. G.: Low-dose heparin in femoral neck fractures, 42
Clavicle, fractured, place and efficacy of operative management of, 236
Collagen fibrils, evidence for local denaturation of, during mechanical rupture of human tendons, 317
Complication of intramedullary nailing, 261
CORREA F.: *see* PEIRÓ A. jt auth.
CRAIG R. P.: Quantitative evaluation of use of oral proteolytic enzymes in treatment of sprained ankles, 313
Cubitus varus, late, supracondylar fractures of humerus in children, with note on surgical correction of, 45
Cyst, traumatic, of lung, 241

D

DARDER A. and GOMAR F.: Series of tibial fractures treated conservatively, 225
DINGSØR NIELSEN G. and GRØNMARK T.: Traumatic cyst of lung, 241
Dislocation(s) of ankle without fracture, 63
and fracture dislocation of pelvis, 325
of shoulders, bilateral erect, 294
unusual traumatic anterior, of hip, 220
DOUGLAS J. N. and LUCK R. J.: Late obstructive jaundice due to traumatic pancreatic granuloma, 60
DOWD G. S. E.: *see* MACE P. M. jt auth.

E

Editorial, 1, 93, 275
EDWARDS D. H.: *see* GALASKO C. S. B. jt auth.
EDWARDS D. H., STEEL W. M. and BENTLEY G.: Prophylaxis with dextran 70 against thrombosis in patients with fractures of upper end of femur, 250
EL-AHWANY M. D.: Supracondylar fractures of humerus in children with note on surgical correction of late cubitus varus, 45
Enzymes, oral proteolytic, quantitative evaluation of use of, in treatment of sprained ankles, 313
Epiphysis, upper femoral, severe irreducible slipping of: A review of fourteen cases treated by subtrochanteric osteotomy, 213
ERIKSON U. and PONTÉN B.: Possible value of arteriography supplemented by vasodilator agent in early assessment of tissue viability in frostbite, 150
Evaluation of results of primary internal fixation in treatment of open fractures, 22
Evidence for local denaturation of collagen fibrils during mechanical rupture of human tendons, 317
External fixation in war injuries, 94
Eye, car seat belts and, 3

F

Factors affecting times till death of pedestrians killed in road accidents, 208
Femoral neck fractures, acute, primary prosthetic replacement in, 286
  neck fractures, low-dose heparin in, 42
  shaft, fractures of, intramedullary nailing for, 7
Femur, proximal, survey of fractures of, 196
  simple method of obtaining lateral radiograph of head and neck of, 246
  supracondylar fracture of, Toronto experience with, 113
  trochanteric fractures of, results of operative treatment of, 202
FERRANDIS R.: *see* PEIRÓ A. jt auth.
FIDLER M.: Skeletal traction stirrup with self-aligning low friction joints to reduce pin loosening, 36
FINLAY J. B.: *see* STEVEN F. S. jt auth.
Fisk splint—description and assembly, 340
Fistulae, dural, cerebrospinal fluid leakage, and meningitis after basal skull fractures, 141
Fitting of artificial limb after 56 years, 343
Fixation, external, in war injuries, 94
  primary internal, evaluation of results of, in treatment of open fractures, 22
FLOMAN Y. and KATZ S.: Osseous lesion simulating a bone tumour due to unsuspected fragment of wood in foot, 344
FLYNN M., MOULTON A. and ROSE G. K.: Simple method of obtaining lateral radiograph of head and neck of femur, 246
Foot, unsuspected fragment of wood in, osseous lesion simulating bone tumour due to, 344
Fracture(s), basal skull, cerebrospinal fluid leakage, dislocations of ankle without, 63
  due to shock from domestic electricity supply, 244
  dural fistulae and meningitis after, 141
  femoral neck, low-dose heparin in, 42
  of femoral shaft, intramedullary nailing for, 7
  isolated, of shaft of ulna, 180
  juvenile humeral supracondylar, arterial occlusion in, 254
  multiple, of pelvis with unusually wide disruption of symphysis pubis sustained in accident shortly after childbirth: case report, 57
  open, evaluation of results of primary internal fixation in treatment of, 22
  of sella turcica, 335
  severe open of tibia, that might have required amputation, salvage of, 154
  subtrochanteric, surgical treatment of, 70
  supracondylar, of femur, Toronto experience with, 113
  supracondylar, of humerus in children with note on surgical correction of late cubitus varus, 45
  survey of, of proximal femur, 196
  tibial, series of, treated conservatively, 225
  trochanteric, of femur, results of operative treatment of, 202
  vertical, of talus, late results after, 173
Fracture-dislocation of elbow, osteochondral fracture of trochlea associated with, 257
  of pelvis, dislocation and, 325
  simultaneous bilateral posterior, of shoulder, 39
Frostbite, possible value of arteriography supplemented by vasodilator agent in early assessment of tissue viability in, 150
